

Bell Work

1/14/2015

What are 2 things that make group
work successful?

Besides working as a whole class and individually, you often will work in pairs and in small groups. It is important that you have confidence in one another, share ideas, and help each other when asked. When working in groups there are specific jobs to help the work run smoothly.

| Job | Responsibility |
|------------|---|
| Manager | Recommends data gathering methods and units of measure. Communicates with the teacher on behalf of the group. Keeps group on task and on time. Fills in for a missing worker. |
| Reporter | Performs the actual measurement. Speaks clearly to report data to the group—most especially the recorder |
| Recorder | Records measurements and shares information with group members. Not necessarily the one with the best writing, but maybe one who can write quickly. |
| Reader | Reads the questions out loud to the group. Works with the manager to keep group on task to get the work done. |

| 1 st Block Class Data | | |
